

Time can be bought.

Once concrete is batched, your time before it sets is limited. Whether you need more time for delivery because of traffic, weather or other unforeseen delays, or your customer needs more time for placement. You can get more time by adding **Mini Delayed Set** retarder. *Carry it just in case.*

WASHWATER STABILIZATION

You can reduce the amount of waste water & eliminate settling tanks or ponds. Reduce the time required to wash your trucks at the end of a work day with **Mini Delayed Set**
