

Proud member of the American Concrete Pumping Association since 1994

STAY PUMPED!

WITH SLICK-PAK AND SLICK-PAK II ...
OFTEN IMITATED BUT NEVER EQUALLED!

FRITZ-PAK products are still the best, fastest working pump primers on the market. Packaged in patented water soluble bags, they are also the safest for workers to handle.

Also try Mini Delayed Set! Retard the mix when they make you wait with concrete in your pump.
