

Plaster Supreme

Water-Retention Admixture

Plaster Supreme is a white, dry, powdered admixture packaged in a ready-to-use, **water-soluble bag**. It is intended for use in pool plasters, to create a smooth, easily-spread plaster that is less prone to cracking. This chemically active agent improves the water retention of cement-based plasters, grouts, and mortars. Plaster Supreme also contains pumping additives that make the plaster more workable and easier to trowel. Unlike clay-based additives, Plaster Supreme will not leave residues that can promote discoloration or increase plaster cracking.

MEETS STANDARDS:

There are no applicable standards for this product.

PACKAGING:

SIZE	10 oz. Bags
BAGS/CASE	40
CASES/PALLET	35

Also available in 50 lb. bags.

No 98421

WHY CHOOSE PLASTER SUPREME?

- Reduced need for rewetting the plaster
- Reduced shrinkage cracks
- English & Spanish instructions
- Improved plaster workability

INSTRUCTIONS

- When blending plaster at the job site, use 1 bag of Plaster Supreme per every 4 bags of cement in the mix.
- When using pre-blended plaster, use 1 bag of Plaster Supreme per 1,000 lb. of plaster.
- Prepare pool plaster mix using all ingredients, including water. Begin mechanical mixing before adding Plaster Supreme.
- Add the water-soluble bag to the plaster mix in the mixer & continue mixing for 5 minutes.
- If adding Plaster Supreme to dry plaster blends for sale, add at a rate of 0.166 lb./100 lb. of cement or at the rate of 0.0604 lb./100 lb. of total blend.

FAQ

Q: How does Plaster Supreme work?

A: Plaster Supreme contains a water-retention agent that prevents water loss through both evaporation & substrate absorption. It also entrains air into the plaster to improve the workability.

Q: Does Plaster Supreme affect the durability of the plaster?

A: Yes. Plaster Supreme is a slight water-reducer & therefore creates stronger, more durable plasters.

Q: Will Plaster Supreme discolor the plaster?

A: No. Plaster Supreme is a white material that will not cause problems with integral colors in the plaster mix.

COMPATIBILITY

Plaster Supreme is compatible with most concrete and cement admixtures. When using more than one admixture, each product should be dispensed separately. Plaster Supreme does not contain calcium chloride, nitrates, or other potentially corrosive materials. Store in a dry location, protected from breakage, deterioration, and contamination. It is not subject to damage from freezing temperatures.
